AC Single-phase 7KW Mini Home Charger

# OE Mini Home Charger

Our single phase 7KW AC charger saves space and is easy to operate, making it an ideal solution for your home or company.

The product design is highly integrated and compact, measuring smaller than an A4 paper. Plus it has maximum 32A output current, specially designed for private use.

With protection grade up to IP54, it's suitable for both indoor and outdoor applications. The compact design supports wall mount and floor-stand installation.

Datasheet	Model	OE Mini Home Charger
Input	Power Supply	1P+N+PE
	Voltage	230V ± 10%
	Frequency	50/60Hz
Output                Structure Design	Voltage	230V ± 10%
	Maximum Current	32A
	Power	7kW
	Installation Method	Wall mount
	Housing Material	Plastic
	Wall-mount Bracket	Not necessary
	Charging outlet	One charging gun (type 2)
	LED Indicator	Yes
	LCD Screen	No
	Emergency Stop	Yes
	Wi-Fi	No
	RFID Function	No
	RFID Card	No

Datasheet	Model	OE Mini Home Charger
Environmental Index	Operating temperature	-30°C~+50°C
	Work Humidity	5%~95%
	Work Altitude	<2000m
	Protection Grade	IP54
	Application site	Indoor/Outdoor
	Cooling method	Natural cooling
Security Protection	Multiple Protection	Over current protection, Residual current protection, Short circuit protection, Ground protection, Surge protection, Over/Under voltage protection, Over/Under frequency protection, Over/Under temperature protection
	MTBF	100,000 hours
	Certification Standard	IEC 61851-1: 2017, IEC 62196-2: 2016
	Warranty	2 Years
Package	Product Dimension	180*130*120mm (H*W*D)
	Package Dimension	200*150*140mm (L*W*H)
	Net Weight	3.6kg
	Gross Weight	4.5kg
	External Package	Carton

# OE Smart Home Charger

## Intelligent Control

- Wireless communication (Wi-Fi/Bluetooth)
- OCPP communication protocol with CMS
- Smart charge or scheduled charge by App

## Innovativeness

- Minimal size, streamline design
- Home use with intelligent App control

## Secure and Safe

- 6mA DC residual current protection
- Anti-welding protection

## Flexible Option

- Type 1 or Type 2 charging cable
- App operation or RFID authentication or plug and play
- Wall-mount or floor-stand installation

# OE Empower Charger

## Innovativeness

- Temper glass panel, modern design
- Business use with intelligent App control
- Wi-Fi Mesh technique, saving cost on wire installation

## Intelligent Control

- Wireless communication (Wi-Fi/Bluetooth), Ethernet/4G optional
- OCPP communication protocol with CMS
- Intelligent operation by App and cashless payment

## Flexible Option

- Universal Type 2 socket, optional with Type 1/Type 2 charging cable
- App operation or RFID authentication or plug and play
- Wall-mount or floor-stand installation

## Secure and Safe

- RCD Type A and 6mA DC residual current protection
- MID certified energy meter with accurate measurement

# OE Enhance

**AC Twin Pedestal Commercial Charger**

(Available in 7KW Single-phase & 22KW Three-phase)

# OE Enhance Charger

2 x 7KW and 2x 22KW commercial chargers. Designed to have 2 outputs and be able to charge two electric vehicles simultaneously. The floor stand design with dual charging sockets increases the usage rate while saving on installation costs.

Compliant with industry standards, the charger uses a meter to ensure accuracy and built-in RCD to secure safety. Charger includes Type B RCD.

The charger can be connected to a charging network. Multiple public chargers in one location can be integrated onto the network with only one internet connection. Thanks to open charge protocol OCPP 1.6, the charger operation and status is monitored and controlled by a backend or central management system.

Model	AC Double Plug Charging Station
Type	KY-AC-14KW & KY-AC-22KW
Dimension (mm)	480 x 350 x 120
User Interface	4.3 Inch Highlight Display
AC Power	380Vac±20% ; 50Hz±10% ; L+N+PE
Rated Current	32A
Output Power	2 x 7kW & 2 x 11kW
Charging Mode	Swipe card, scan code
Networking Mode	Ethernet, 4G, wifi
Operation Mode	Offline no billing, offline billing, online billing
Protection Function	Overvoltage, undervoltage, overcurrent, short circuit, surge, leakage, etc.
Executive Standard	IEC 62196, SAW J1772
Cable Length	3.5m (optional)
Protection Level	IP54, Type B RCCB
Installation	Floor Stand or Wall-mounted Installation

# About Our Charging App

# What Our App Can Do

- The Partner Portal is a Charge Point Management System (CMS) for installers, operators and service providers
- Manage charge point networks of all sizes
- Get the full overview of your customers and your own EV charging business in one platform.
- Manage your customers' charge points completely: Decide who has access, when and at what cost.
- Manage payments between users and charge point owners in real-time.
- Invoice your customers directly from the portal
- Sell products and services directly to end users.
- End users have access to products via the Monta app

**ONE EV  
SOLUTIONS**

# Features

## Company Sponsored Charge Points

When employees charge their car from home or own the go, businesses can automatically manage, track and pay for the electricity.

## Smart Queue

Smart Queue is an intelligent queueing system for busy charge points. Once a CP is available and it's your turn, you'll receive a push notification on your device.

## Load Balancing

One EV Solutions supports static, dynamic and true dynamic load balancing.

# A Few Features Explained

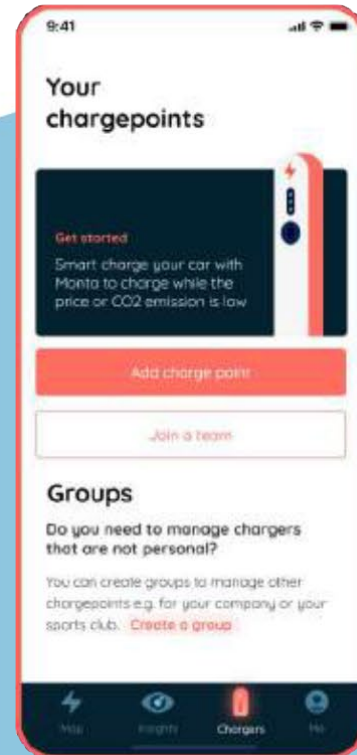

## Insights

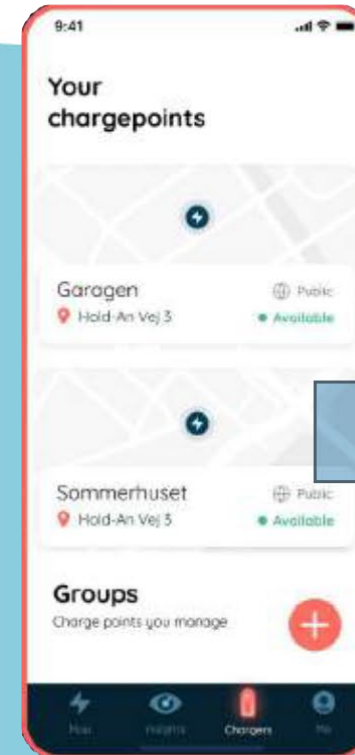

See stats on kWh, CO2 emissions, money spend and much more!

## Charge Points

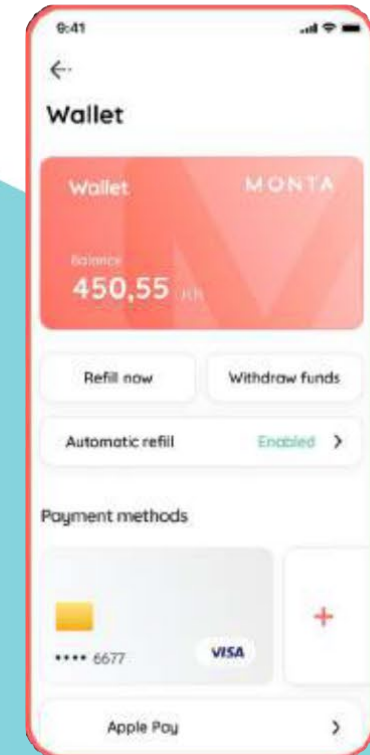

Add your CP(s) and automatically charge your EV with green, renewable or low cost energy.

## Teams

Invite friends, family or neighbours to your team and let them use your CP.

## Wallet

Track payments, billings and expenses directly with your wallet.

# Can Also be Used on the Road

## Log In

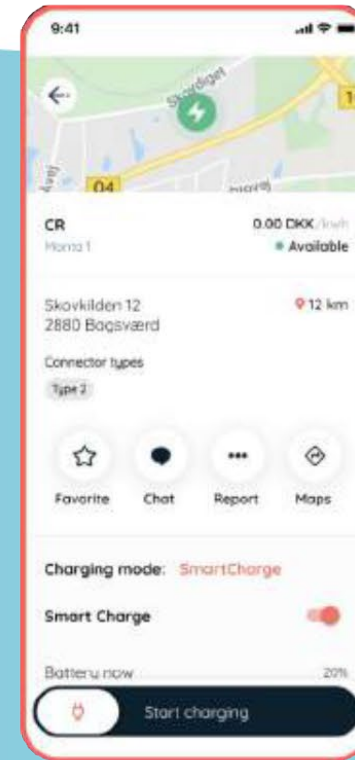

Open the app to get instant access to EV charging on the road.

## Choose Charge Point

Pick between 150,000 charge points all over Europe.

## Pick Payment

Credit/debit card, Google Pay and Apple Pay options all available.

## Charging has started

That's it! Start charging without worrying about invoices or charge chips.

# Why You Should Partner With Us

## Consolidation

One partner portal for installers, operators and small to large businesses to manage, scale and optimise entire EV ecosystem.

## User Friendly App & Partner Portal

Fully automated process, smart charging, load balancing, smart queue and roaming network for EV drivers.

## Flexibility & Hardware Agnostic

Easily set up your charge points with our charging software.

## 24/7 App Support

24/7 phone and web support available for our enterprise clients.

## Make Your Charge Points Public

Put charge points on roaming network for other EV drivers to find and use to generate extra revenue on your chargers.

## One EV Solutions

We offer the complete package with our end to end solution.
